DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 1 recites the limitation "the other guide roller" in line 9. There is insufficient antecedent basis for this limitation in the claim. It is unclear which guide roller applicant is referring to.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Shinozaki et al. (JP 2001-123127 A).

Regarding claim 1, the device of Shinozaki includes an application part (5) for pressing an adhesive tape against an application surface and a guidance part comprising three guide rollers (6, 17) having a tapered shape portion. The guide rollers and application

part push the tape to object. The rollers are positioned in different directions. (See Figures 1, 4, and 5.)

As to claim 2, Shinozaki includes a pin (7) on the part (3) which holds the guide rolls (6, 17). As such the guide rollers are installed swingably.

As to claims 3 through 6, the part (F) is pinched with resilience by the application part (5) and guidance part (6, 17) and includes an opening and closing means for disengaging the part (F) therefrom.
